

STATUTORY CORPORATE GOVERNANCE STATEMENT

cf. Section 107 b of the Danish Financial Statements Act - 2023-2024

Introduction

Gabriel Holding A/S (Gabriel) has prepared the statutory statement on corporate governance as per section 107 b of the Danish Financial Statements Act covering the period from 1 October 2023 to 30 September 2024. Further information about the company's management structure is contained in this statement on corporate governance being part of the annual report.

The statement includes:

- A description of the management structure
- The element of the internal controls and risk management systems in relation to the financial reporting
- An annual review of the company's position on the Danish Recommendations on Corporate Governance

Management and board committees

Gabriel has a two-tier management structure consisting of the Board of Directors (Board) and Executive Management. The two bodies are separate, and no one serves as a member of both.

The Board participates in determining the company strategy and supervises the performance of the company and ensures adequate management and organisation. Executive Management has the responsibility for the company's daily operations.

Board of Directors

The Board consists of seven members, five of whom are elected by shareholders at general meetings and two by employees in Denmark.

The Board's collective profile can be characterised as having possession of broad and international business experience with professional skills including within strategy, production, innovation, sales, finance, IT, design, and marketing estimated to cover the Group's needs. The Board regularly assesses the need for any changes in its collective expertise. Board members keep themselves actively advised about Gabriel and the industry in general.

In December 2023 the shareholders elected and re-elected the following members to the Board:

- Jørgen Kjær Jacobsen (chair of the Board since 2010, member of the Acquisition & Strategy Committee, Audit Committee and the Governance, Remuneration & Nomination Committee – not considered independent, as Jørgen has been a member of the Board for more than 12 years)
- Søren Mygind Eskildsen (vice chair of the Board since 2022, chair of the Acquisition & Strategy Committee, member of the Audit Committee and the Digitalisation & Cybersecurity Committee – considered independent)
- Hans Olesen Damgaard (member of the Board since 2015 and chair of the Governance, Remuneration & Nomination Committee, member of the Digitalisation & Cybersecurity Committee and the Acquisition & Strategy Committee – considered independent)
- Søren B. Lauritsen (member of the Board since 2010, chair of the Digitalisation & Cybersecurity Committee – not considered independent, as Søren has been a member of the Board for more than 12 years)
- Randi Toftlund Pedersen (member of the Board since 2022 and chair of the Audit Committee – considered independent)

The shareholder elected board members are elected annually at the annual general meeting. At the constituent board meeting following the annual general meeting held in December 2023, the Board reappointed Jørgen Kjær Jacobsen as chair and elected Søren Mygind Eskildsen as vice chair and appointed the board committees.

In addition to the shareholder elected members two employee representatives are on the Board. Election of employee representatives to the Board is a right enjoyed by Danish employees under Denmark's company law. The board members elected by the employees must comprise half the number of board members elected by the general meeting. The board members elected by the employees act under the same terms as the other board

members, but under company law they are elected for four years at a time. The terms of office are on a rolling basis to ensure continuity.

- Quinten Xerxes van Dalm (member of the Board since 2014 and member of the Digitalisation & Cybersecurity Committee – employee representative) – up for election in December 2024
- Rikke Lyhne Jensen (member of the Board since 2018 and member of the Governance, Remuneration & Nomination Committee – employee representative) - up for election in December 2026

For a further presentation of the board members above, refer to the management commentary section of the annual report.

In 2023/24 the Board held 6 meetings. The attendance rate for the year was 98%.

Annual Board review

The chair of the Board is responsible for conducting an annual review of the Board's performance, addressing the effectiveness of the Board, Executive Management, individual board members contributions and the chair's performance. Each board member and member of Executive Management also receives feedback from all the other board members and Executive Management about their individual performance.

The task of preparing the annual self-evaluation of the individual members of the Board and Executive Management is executed by the Governance, Remuneration & Nomination Committee. Every three years, the evaluation is facilitated by external consultants – next time in 2025.

In 2024, an internally facilitated board evaluation process was conducted, focusing, among other things, on the recommendations on corporate governance, covering the Board's work, efficiency, independence, composition, and organisation. Topics included:

- the composition of the Board with focus on competencies and diversity,
- the Board and the individual member's contribution and results,
- the cooperation on the Board and between the Board and the Executive Management,
- the chair's leadership of the Board,
- the committee structure and the work in the committees,
- the organisation of the work of the Board and the quality of the material provided to the Board,
- the Board members' preparation for and active participation in the meetings of the Board,
- the Board members' number of other managerial duties; and
- an assessment of the Board's overall competencies in relation to those that best support Gabriel's strategy.

The results of the assessment were presented to the Board in August 2024 by the chair of the Governance, Remuneration & Nomination Committee. The main conclusions and outcomes of the board evaluation were, that the Board and the board committees through 2023/24 maintains a positive development by the dedication, required key competencies and sparring offered by and among the board and committee members, including in the relationship between the Board and Executive Management. In addition, the evaluation also concluded that the Board continues to have in-depth industry knowledge and competencies that support Gabriel's business and strategic goals.

As a part of this year's Board evaluation, the Board has considered whether there is a satisfactory continuity preparedness and concluded that there is a satisfactory status in this area as well.

- Anders Hedegaard Petersen (chief executive officer (CEO))
- Claus Møller (chief commercial officer (CCO))

For a presentation of Executive Management, refer to the management commentary section in the annual report.

Internal control and risk management systems

Gabriel's supreme governing body has general responsibility for the Group's risk management and internal controls in relation to financial reporting, including compliance with relevant legislation and other financial reporting regulations.

The Group's risk management and internal controls are designed to avoid any material misstatements and omissions during the financial reporting process. The Board /Audit Committee and Executive Management regularly assess risks and internal controls in connection with the Group's activities and any impact on the financial reporting process.

The control environment

Management regularly assesses the organisational structure and staffing of the Group and lays down and approves overall policies, procedures and controls in relation to the financial reporting process, with emphasis on clear reporting policies and segregation of duties.

Risk assessment

When the annual business plan is prepared, the most important business risks are identified, and against this background, management makes an overall risk assessment, including an assessment of the most important risks arising from the financial reporting process. As part of the risk assessment, management considers the risk of fraud and any other improper influence on the financial reporting process annually.

The Group's Risk Management policy strives to eliminate and/or reduce the risks identified based on an assessment of materiality and cost-benefit analyses.

The Board assesses Gabriel's IT security and insurance coverage annually.

The most important risks arising from the financial reporting process are disclosed in the Executive Management's review and notes to the financial statements, to which reference is made.

Control activities

At the board meetings, Executive Management reports on the status of any risk factors attributable to strategy, organisation or major operations. The Group has a detailed internal reporting system comparing monthly reporting with the budget and regularly evaluating performance and the meeting of specific targets through Key Performance Indicators etc. The system provides a high level of transparency with respect to various activities in the company and helps to give management a comprehensive insight into and knowledge of matters which could be important in relation to the full process of presentation of accounts.

Each quarter, the Board is provided with a detailed account of financial performance compared with the budget and prior periods. The reporting also describes and assesses material balance sheet items, cash flows, forecast future activities and earnings and other matters with an impact on operations.

Information

The Board lays down the general requirements for the result and the external financial reporting in accordance with relevant legislation and regulations. The Group also aims constantly to offer adequate, complete and precise information reflecting corporate performance.

The Board emphasises that there must be open communication in the company within the framework for listed companies, and that each individual must know his or her role in the company's internal controls. The Group has chosen to divide operations and internal reporting into both geographically divided business areas, and in independent strategic business units. Both business areas and business units are run as independent profit centres with their own missions, visions, goals, strategies, action plans and budgets. This division ensures a high degree of delegation of expertise, following-up and delegation of responsibilities in the organisation and enables information on relevant matters to be communicated effectively and reliably throughout the system.

Monitoring

Gabriel monitors the functioning of its internal control and risk management system at all Group levels on a regular basis. The scope thereof is determined primarily based on the risk assessment and the effectiveness of controls and procedures.

Weaknesses, control failings or breaches of designated guidelines are reported based on their importance to Executive Management or the Board. The reporting is typically discussed at the next board meeting, at which the Board is informed of actual findings and recommendations on procedural changes etc.

In their long-form audit report to the Board, the auditors appointed by the annual general meeting report any material failings in the Group's internal control systems in relation to the financial reporting process.

The Board follows up on the implementation of any planned optimisation of risk and internal controls in relation to the financial reporting process.

Deviations from Corporate Governance Recommendations
